

NNTPGrab - Feature # 2: Qt frontend

Status:	Closed	Priority:	Normal
Author:	Alguno	Category:	Qt GUI (regular GUI)
Created:	05/13/2010	Assigned to:	Alguno
Updated:	12/05/2010	Due date:	
Subject:	Qt frontend		
Description:	The current NNTPGrab GUI is created using GTK+. While GTK+ works fine on Linux, support on Windows and Mac OS X is incomplete and/or broken. The Qt toolkit works similar to GTK+, but has very good support on Windows and Mac OS X. In addition to the GTK+ based GUI, a Qt based GUI should be created. A Qt based version of the NNTPGrab Server gui was already introduced in version 0.6		

History

05/13/2010 06:04 pm - admin

- Tracker changed from Bug to Feature

05/22/2010 02:36 pm - Alguno

- Assigned to set to Alguno

05/24/2010 02:00 pm - Alguno

- Target version changed from 30 to 0.7.0

05/24/2010 02:05 pm - Alguno

- % Done changed from 0 to 20

06/28/2010 12:25 am - Alguno

- % Done changed from 20 to 40

06/28/2010 12:26 am - Alguno

As of today, snapshots containing the Qt frontend are published at <http://snapshots.nntpgrab.nl>

08/19/2010 08:22 pm - Alguno

- % Done changed from 40 to 70

11/08/2010 10:44 pm - Alguno

- Category set to Qt GUI (regular GUI)

- % Done changed from 70 to 90

The following things are left to be done in the Qt frontend:

- Add support for automatic shutdown
- Hide/show columns in the download queue tab (depending on the configuration settings)
- Hide inactive connections (depending on the configuration settings)

12/05/2010 10:17 pm - Alguno

- Status changed from New to Closed

All features are now implemented in the Qt frontend and it has become the default frontend for Win32, Win64 and Mac OS X environments as of NNTPGrab 0.6.91
